

# USA Government Puppet Betrays Kenyans

It is now obvious that US govt is determined to make Kenya their CLIENT state – Vassal state.

William Ruto has agreed to sign-off the country's sovereignty, in exchange for protection from his own people.

If this state of affairs is allowed to continue, Kenya will soon become a banana republic – A Failed state.

Can the country be saved?

Yes.

In my view, this would involve a 2 Stage process: Stage I & II.

Stage II will involve 4 steps – with the 4th one being the final step.

However, Stage II cannot happen, until Stage I is completed successfully.

The First African President to sit on the Oval Authority Seat.

This man is just anointed from heaven 🙏

## **Auctioning-off Kenya**

When Ruto agreed to auction-off the country's sovereignty to the US for personal gain, he signed several deals, that have very negative consequences for Kenyans.

Among them:

(a) He agreed for Kenya to host certain aspects of USA/EU mission against Yemeni's Houthis.

That conflict is related to the ongoing Israel-Palestine crisis, where Houthis are prominent backers of Palestine.

Therefore, people out there will interpret this to mean Kenya is on Israel's side, and is actively supporting brutalisation of Palestinians.

This action by Ruto directly threatens the lives of tens of thousands of Kenyans working in the Middle East/Gulf region.

(b) He agreed for the US to have 2 new military bases in the country, to 'monitor the region'.

Already, Ruto's regime has officially been accused of involvement in ongoing Sudan civil war, and interfering in internal affairs of the Democratic Republic of Congo.

Naturally, American government has its own interests in those countries – and anything negative USA will do there, or in other neighbouring countries, Kenya will be blamed, as an accessory.

This once again endangers the lives and businesses of a lot of Kenyans, yet they were not consulted before Ruto signed these self-serving deals.

**Big Picture:** Ruto has basically told the Americans (and Western govts, generally): "I will do anything you want, regardless of how bad it is for my country, as long as it benefits me personally".

The worst thing that can happen to a country politically, is to be led by a corrupt, unpatriotic psychopath – Because citizens suffer a lot, as the state gradually collapses.

# Shameful! Latin America is a no-show in multinational security force for Haiti | Opinion

BY ANDRES OPPENHEIMER  
UPDATED MAY 27, 2024 10:47 AM

This week will mark a new milestone in Latin America's long history of political surrealism: Kenyan troops are scheduled to fly all the way from Africa to lead a United Nations-backed multinational force to help defend Haiti's government against violent gangs that have taken over much the Caribbean country.

Brazil has the most experience with peace-keeping missions in Haiti, because it led the military component of the United Nations Mission for the Stabilization of Haiti (MINUSTAH) from 2004 to 2017. And many Haitians have good memories of the time when Brazilian police forces set up soccer academies and computer training camps to help divert young people away from organized crime gangs.

Asked why Brazil, Chile and other former prominent players in MINUSTAH are no-shows this time around, several Haiti experts told me it's largely because governments fear a political backlash at home if they send police forces abroad while their own countries have record crime rates.

# BACKGROUND

1. Kenyan politicians have been accused of all manner of ills – corruption, greed, even murder.

But Ruto is the first to be called 'sadist' – by even people who voted for him.

Last year, I saw one relatively prominent person who voted for Ruto, state on social media something to the effect: "What made me vote for this devil(Ruto)?"

Things are that bad for many Kenyans – including those who voted for UDA.

2. Ruto's character is very similar to that of late Zaire (DRC) dictator Mobutu Sese Seko.

(a) Mobutu never felt comfortable around intelligent Congolese.

He surrounded himself with stupid bootlickers – Same case with Ruto.

(b) Mobutu was a sadistic narcissist.

All he cared about was what was good for him, not his countrymen – Same case with Ruto.

(c) Mobutu was a darling of the West – Same case with Ruto.

(d) All Mobutu wanted Western Powers to do for him, in order for him to hand over his country's sovereignty to them were:

(i) Help him become Life President;

(ii) Help him become the richest person in Africa (did he achieve that?)

- Same case with Ruto.

(e) Through corruption and mediocre appointments to important national posts, Mobutu destroyed DR Congo.

- With Ruto in power, Kenya is heading to total ruin due to similar reasons.

3. Ruto derives wicked pleasure via tormenting poor Kenyans.

Recall his land grab in Ndabibi-Naivasha, where farmers woke up one morning to meet police evicting them from their homes, allegedly because their land 'now belonged to Ruto'.

These are not millionaire farmers – they are peasant farmers, who were suddenly declared homeless and destitute.

## **DP Ruto in fresh scandal as villagers accuse him of grabbing water for his expansive ranch**

**'Blocked off key water canal'**

"We write to you on the behalf of thousands of residents of Taita Taveta County regarding disputed land acquired by the Deputy President, Dr Ruto, in Mata ward. Dr Ruto has, by abusing the power entrusted to him by Kenyans in various state offices since 2005, appropriated to himself over 2,500 acres in Taita Taveta County and blocked off a key water canal, leading to dwindling water levels in Lake Jipe, which provides numerous locals with water and fish," said Mr Mohamed in the letter that is copied to the Ethics and Anti-Corruption Commission, the National Land Commission and the Assets Recovery Agency.

4. Through his support by USA and other Western Powers, Ruto has managed to kill political opposition in the country.

In fact, USA and other Western Powers, through their state officials and Nairobi-based Diplomats, have directly contributed to finishing off Kenya political opposition.

Ruto has also bought many opposition MPs – Making him have at least 75% of MPs in his pocket.

Therefore, suffering Kenyans have no one to help address their grievances in the political arena.

5. Ruto currently derives his political power, not from Kenyans, but from Western Powers, principally USA & Israel.

However, USA & Israel are tied at the hip at the moment, so it is logical to concentrate on American govt propping up Ruto.

It is very important to understand the following: When American politicians support Israel (or Israeli politicians), it is because it is in their interest to do so.

However, very few – insignificant number – American politicians support their government's actions in Kenya because they gain anything by doing that.

When American politicians (Congressmen/Senators) support their govt making Kenya a Puppet Regime – It is because they think it is good for Kenya.

That is what they have been told by their govt – Especially through state department.

But USA state department top officials, including Secretary of State Antony Blinken, know that what they are doing in Kenya is against Kenyan interests.

A man who accuses Eldoret North MP William Ruto of grabbing and occupying his farm in Turbo at the height of the 2008 post-election violence begins to argue his case Monday morning.

In his book, **"My life, My purpose: A Tanzanian president Remembers"**, former Tanzanian President, H.E Benjamin Mkapa describes William Ruto as a POWER HUNGRY, TRIBAL, CORRUPT, UNTRUSTWORTHY and a DANGEROUS WAR LORD, who gave absurd conditions that threatened peace, businesses and lives of the Kikuyu, Kamba & Kisii communities and escalated violence in 2007/2008 Post Election Violence.

# STAGE I

Kenyans must block America from propping up Ruto – using excuse of Kenya being a 'strategic partner'.

Is it possible for Kenyans to do that?

Yes. 100% possible.

This is a very serious matter – And Kenyans need to take it very seriously.

Already, US Congress Foreign Affairs Committee has written a Resolution, to be presented to the full House, about making Kenya an American Client State – using 'strategic partner' PsyOp.

That Resolution, and its implementation is meant to make Ruto untouchable – He can continue abusing wananchi any way he likes, because he is protected as a 'strategic partner'.

If Kenyans let the country become an American Client State, it will mean that Ruto would achieve his dream of becoming life president.

1. Before Ruto's recent visit to the USA, there are many Kenyans, including myself, who wrote to various American personalities explaining who he really was, and why it was against Kenyans' interests to prop him up.

- Through Kenyans bombarding Congress Speaker with info about how crooked Ruto is, he refused to allow him address the House.

Why is this important?

If Ruto addressed Congress, that would have made a lot of Americans to view him as a very good leader – because they wouldn't expect an evil foreign politician to be allowed such privilege.

If US citizens think he is a good leader, then they would believe their govt propping him up was good for Kenya – which is opposite of reality.

- Ruto was snubbed by a prominent African American entertainment mogul & a certain Congressman, yet these were confirmed appointments.

Coincidentally, I had also written to both of them about this African crook.

(Of course I am not saying they snubbed him because of me, but what if hundreds of other Kenyans also did the same?)

Remember that, these African Americans wouldn't knowingly support an African tyrant –  
But how would they know a certain African ruler is a tyrant, if Africans do not tell them?

2. Because US government has decided to interfere in Kenya's internal affairs, Kenyans have the right and obligation to let American citizens know the type of person their govt is propping up.

Luckily, because of social media, it is very easy to contact almost any person online.

As many Kenyans as possible should write to members of US Congress Foreign Affairs Committee & Senate Foreign Affairs Committee – Because these are the committees that deal with foreign matters.

Personally, I have written to chairmen & vice-chairs of both, plus several other members.

What is quite good about this tactic is that most of these US politicians have no reason to support a corrupt African tyrant – But if Africans do not give them that info, how would they know about it?

**NOTE:** An African puppet of the West is always portrayed positively by Western media.

Therefore, people in the West wouldn't know about their crooked ways, unless Africans tell them.

I have also written to the author of the 'Kenyan Resolution' - She is a member of Foreign Affairs Committee.

It is important to only give verifiable facts when writing to these politicians – Media sources, graphics etc that expose Ruto's corrupt regime.

Also crucial to let them know that Ruto was convicted of theft by the High Court, in the Muteshi case.

3. The only way to force America to stop interfering in Kenya's domestic affairs, is by exposing the Ruto regime's wicked ways to as many Americans as possible.

This is an election year in the US.

The ruling party wouldn't like to lose even a single vote from the African American community, because the person is angry at their govt for destabilising Kenya.

Therefore, the more Americans know about fact their govt is propping up Ruto, yet he is a corrupt tyrant, the better.

If Ruto is expected to meet with any American – or any dignitary from a Western country – let the person know before-hand, about Ruto's character.

4. I have seen some Kenyans on social media derisively refer to US Ambassador to Nairobi as 'Kenya president'.

Let the Ambassador know about how you feel about her country killing Kenya democracy, to benefit a thieving tyrant.

**SUMMARY:** Put the people in America promoting Ruto under so much pressure, that they have no choice but to stop destabilising Kenya.

If this STAGE I succeeds, then Ruto would immediately become the weakest head of state in the country's history.

Without protection from Western Powers, Ruto would be like a fish out of water – Totally powerless.

His regime wouldn't be able to survive another 6 months after that.

And it would be time for Kenyans to go to Stage II.

## How Weston Hotel land was grabbed from KCAA

The land on which Deputy President William Ruto's Weston Hotel stands was grabbed from the Kenya Civil Aviation Authority, evidence shows.

Lands ministry top officials colluded with rogue KCAA officials to take over the nearly two-acre parcel opposite Wilson Airport.
